ABU DHABI STEM CELLS CENTER
ADSCC
HOWEVER, THAT WASN'T THE ONLY WAY THAT THE ABU DHABI STEM CELLS CENTER LEAPT INTO ACTION DURING THE PANDEMIC.
FROM THE MOMENT THE FIRST CASES BEGAN TO APPEAR, FATIMA AND HER COLLEAGUES SUSPECTED THAT THE POWER OF STEM CELLS COULD POTENTIALLY BE USED TO COMBAT COVID-19 ITSELF.
THEY CALLED AN EMERGENCY MEETING TO BRAINSTORM IDEAS FOR HOW THIS COULD BE DONE.

WORKING WITH DR. YENDRY AND HER COLLEAGUES, FATIMA SPEARHEADED THE DEVELOPMENT OF A PIONEERING AND PATENTED TREATMENT FOR THE NOVEL VIRUS THAT WOULD BECOME KNOWN AS UAECELL19, USING A TECHNIQUE KNOWN AS REGENERATIVE STEM CELL INHALATION.
A PATIENT BREATHES IN STEM CELLS THAT HAVE BEEN COLLECTED FROM THEIR OWN BONE MARROW – THE TREATMENT WAS SHOWN TO REDUCE LUNG INFLAMMATION...
...AND SHORTEN THE LENGTH OF HOSPITAL STAYS BY MORE THAN 70%!
